

IMPORTANT

Replacing Original Equipment Aluminum Flywheel on '03-'04 Cobra Mustangs

Centerforce's flywheel is designed to be installed without the original equipment (OE) steel crank bolt deflection plate on

'03-'04 Cobra Mustangs originally equipped with an aluminum flywheel. Centerforce strongly recommends installing the flywheel without Ford's OE steel crank bolt deflection plate. Use OE flywheel bolts P/N F622-6379-AA (8 required) or equivalent high quality aftermarket flywheel bolts.

****NOTE:** Remove and do not use this plate with Centerforce flywheel.

"NOTE" Centerforce tip sheets are for general reference only. Please refer to your owners manual for vehicle specifications.
